SUMMARY

Developed a full-stack social media platform using MongoDB, Express, Node.js, and EJS, featuring RESTful APIs and real-time messaging with Socket.IO. Designed and tested APIs using Postman and deployed the application on Render. Strengthened skills in web development, database management, real-time communication, and client-server architecture while focusing on scalability, performance, and user experience.

PROJECTS

Postify

MERN Project

11/2024 - 12/2024 Academic

<https://postify-u14d.onrender.com>

- Postify is a full-stack social media platform built using MongoDB, Express, Node.js, and EJS, with RESTful APIs for seamless client-server communication. It enables users to create profiles and share posts. The app focuses on scalability, performance, and a user-friendly interface.
- I developed and tested the application's APIs using Postman, ensuring reliability and smooth integration. The project was deployed on the Render web service platform for live access and scalability. Through this project, I enhanced my expertise in REST API development, real-time communication, and database management.
- This hands-on experience strengthened my understanding of web development, client-server architecture, and deployment, while also improving my problem-solving and debugging skills.

Ochi

React.js Project

05/2024 - 05/2024 Academic

<https://ochi-react.onrender.com>

- Utilized React.js, JavaScript, and Tailwind CSS for building an efficient and responsive web application, ensuring optimal performance and accuracy in UI components for clients
- Analyzed, reviewed, and optimized React components to increase rendering efficiency by up to 30%, significantly enhancing overall application performance and user satisfaction
- Employed advanced React.js concepts (Hooks, Context API) to manage state and create reusable UI components, reducing development time and increasing workflow efficiency

EDUCATION

Bachelor of Computer Applications

Maharshi Dayanand University (MDU)

09/2022 - Present Rohtak, Haryana

12th Central Board of Secondary Education (CBSE)

Sarvodaya Bal Vidhyalay

03/2021 - 03/2022 Badarpur, New

SKILLS

Javascript

Express

Node

MongoDB

REST API

JWT

Postman

Git & Github

HTML

CSS

Tailwind CSS

GSAP

Render

React.js
